Applications: VSCode, GitBash, Insomnia, Postman, Bugzilla, MS Office, Open Office, Cubase, ProTools, Reason, Sound Forge, DAViD, Vegas. Ability to learn new technology quickly and efficiently when needed

PROJECTS

Future RAM
Github: https://github.com/Sean-Sanneman/future-ram
Deployed App: https://wicked-ghoul-96440.herokuapp.com/
- Future RAM aims to be a life planner app in which users can log-on, get inspiration for the day, set goals, and keep a digital diary to be able to look at when needed.
- Core responsibilities: Project lead, Frontend development, and UI design. Assisted backend when needed.
- Tools / languages used: HTML, CSS, MongoDB, Express.js, ReactJS, NodeJS, GraphQL
- Managed communication of group via Slack and Zoom

Collab
Github: https://github.com/Sean-Sanneman/collab
Deployed App: https://immense-wave-96747.herokuapp.com/
- Collab is a website being developed to help musicians find other musicians to collaborate with remotely. Our MVP allows people to create a user account, and search for other users/bands by instruments and genres.
- Core responsibilities: Project lead, and frontend development. Maintained UI development to ensure backend compatibility with overall vision of project
- Tools / languages used: HTML, CSS, Bootstrap, JavaScript, MySQL
- Managed communication of group via Slack and Zoom

Book Garden
Github: https://github.com/Jason-Ahmed-123/groupproject1-book-garden
Deployed App: https://jason-ahmed-123.github.io/groupproject1-book-garden/
- A website that allows users to search for books based on various preferences.
- Core responsibilities: Project lead, frontend development, and backend assistance.
- Tools / languages used: HTML, CSS, Bootstrap, JavaScript, JQuery
- Managed communication of group via Slack and Zoom

EXPERIENCE

Refresh Specialist   August 2018 – April 2020
SiriusXM   Los Angeles, CA

Reset SiriusXM trial packages in used car inventory at various dealerships using a specially designed mobile app. Established communication and relationships with dealership contacts, and occasionally reached out to customers to ensure they were receiving proper service.
Key Accomplishments: Beta tested new app in order to help develop proper procedures, and set new goals and standards for the future of the project.

Beta Tester   March 2012 – Nov 2019
Tone2 Software   Remote, Germany
Beta tester and demo writer for a company who designs VST synthesizers and FX.
Key Accomplishments: Several submissions included on demo reels for multiple products.

Self Employed   Jan 2015 – Sept 2018
Freelance live sound and mixing gigs, driving during downtime.   Los Angeles, CA
Key accomplishments: Mixing for the radio 'Marketplace'.

Professional Audio Sales Associate   Oct 2013 - June 2015
Guitar Center   Seattle, WA
Professional audio equipment sales, installation, and instruction.
Key Accomplishments: I redesigned their monitor (speakers) display, and put together a playlist designed to accurately test the full frequency response of the monitors on display.

Business Owner   Dec 2006 – Dec 2012
Psychic Mokus BT   Budapest, Hungary
Mixing and producing local musicians, communication coaching, and TEFL instruction.
Key Accomplishments: Ran my own business in a foreign country for six years.

EDUCATION

Full Stack Web Developer - Certification   Nov 2020
Bootcamp at UCLA Extension, Los Angeles, CA

Recording Engineer – Certification   March 2005
Los Angeles Recording Workshop, Los Angeles, CA
